

HAS MUNSON A POLITICAL BEE?

Governor's Private Secretary Said To Be Seeking Babcock's Old Place In Congress.

DISTRICT IS A REPUBLICAN ONE

Went Democratic Last Year Owing To The Fight Between The La Follette And Babcock Republicans.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., Aug. 24.—Oscar G. Munson of Vilmar, Vernon county, state senator and private secretary to Governor Davidson, is being named by his friends as the most available republican in the third congressional district of Wisconsin for the nomination a year hence, when Congressman J. W. Murphy of Platteville, the present democratic incumbent, will have to stand for reelection on the democratic ticket, defeating J. W. Babcock, who had represented the district continuously for 14 years. The district is normally overwhelmingly republican, but the La Follette faction of the Wisconsin republican party had long opposed him, and finally, although unable to prevent Mr. Babcock's nomination, defeated him at the polls by supporting the democrat. It is believed that democratic victory was only a temporary incident, born out of antagonism for Mr. Babcock, and that the next election will return the third district to the republican column. Naturally in view of this fact there will doubtless be numerous aspirants for the republican nomination and gossip is already busy to select the best man. Each county will probably have a "favorite son" candidate, but the friends of Col. Munson declare he has the best chance for the nomination. He has not yet made no suggestion as to whether or not he would be a candidate.

Col. Munson was born in Howard county, Iowa, in 1856, and is therefore now 51 years old. He was educated in the common schools of Iowa and Minnesota, and for more than 20 years has lived in the third district, always engaged in the newspaper publishing business. He published the Highland Republican for ten years and for more than the past 20 years has published the Vernon County Democrat at Vilmar. He was a legislative employee for a dozen years and in 1896 was elected to the state senate from the twenty-eighth district, comprising Richland and Vernon counties. He was twice elected, making a continuous service of twelve years as senator. For two years he has been private and military secretary of Governor Davidson. The third congressional district is composed of the seven counties of Crawford, Grant, Iowa, Juneau, Richland, Stark and Vernon.

PENNSYLVANIA BOY HAS STRANGE TALE

Tells Story of Being Kidnapped and Taken to Mexico on Eve of Wedding.

[BY ASSOCIATED PRESS.]
Lancaster, Pa., Aug. 24.—Like one risen from the grave, Frank Montgomery, 24 years old, has returned to the home of his parents, in this city, after an absence of more than a year. Montgomery, a town in western Maryland, to which Alvin Castle, at Lancaster, had procured a marriage license, but he strangely disappeared in that city.

He states that while walking along the street he was seized by a blow on the head. When he recovered consciousness he was in a strange country in the custody of four men, who threatened him with death if he attempted to escape.

They finally entered Mexico, and one night last June while two of the captors were absent and the others were asleep, Montgomery escaped near the town of Alamo.

Milwaukee's "Boy Mayor" Will Speak on Good Roads at Kewaskum Home-coming Tomorrow.

[SPECIAL TO THE GAZETTE.]
Kewaskum, Wis., Aug. 24.—From near and far, old and young former residents of Kewaskum are returning today for the city's first annual home-coming. The most interesting party, perhaps, is the Milwaukee delegation of 450 members, which arrived this afternoon. It is expected that 100 or more will arrive from Milwaukee tomorrow.

Mayor Sherman M. Becker of Milwaukee, will be the orator of the day tomorrow. His subject will be "Good Roads." Kewaskum has never seen the "boy mayor," and his appearance will bring thousands to the city.

Milwaukee, Aug. 24.—The appearance of Mayor "Sherlock" Becker at the Kewaskum home-coming tomorrow is regarded by some politicians as the preliminary gun for his expected campaign for the nomination for governor. His subject will be "Good Roads," a topic that, it is said, is well calculated to draw the rural vote.

FAMOUS LAWYERS TO MEET AT PORTLAND

Judge Alton B. Parker Will Preside—Ambassador Bryce to Deliver the Annual Address.

[SPECIAL TO THE GAZETTE.]
Portland, Me., Aug. 24.—Many men of distinguished appearance were to be seen today about the corridors and lounging rooms of the Calumet Hotel. Included among them were men who make, interpret and expound laws, men who have served their state and nation on the bench, in the cabinet, and as ambassadors to foreign powers—men who bear on noble foreheads and furrowed faces the indelible marks of intellectuality, and whose thoughtful glances and positive speech betoken the trained mind and judicial temperament.

These men form the advance guard of the distinguished company that will attend the thirtieth annual meeting of the American Bar Association in this city during the coming week. To judge from the number of members already here the attendance will be as large if not larger than at any previous meeting of the association.

The convention will be opened in City Hall Monday morning with the address of the president, Alton B. Parker, of New York. Judge Parker, following the usual custom, will communicate to the association the most noteworthy changes in statute law on points of general interest, made in the several states and by Congress during the past year.

Monday evening there will be papers by Charles A. Prosser of the Interstate Commerce Commission, by "A Department of Railways," by Legal Secretary, and by Charles F. Anderson, United States district judge for the district of North Dakota, on the subject of "The Nation and the Constitution."

The second day of the convention will be devoted wholly to the reports of the standing committees. Ambassador Bryce is to deliver the annual address before the association on Wednesday, taking as his subject "The Influence of National Character and Historical Environment in the Development of the Common Law."

NEWS BOYS MADE HAPPY AT EXPOSITION

"Newsies" Given Free Sway at Jamestown Show Including Warpath.

[SPECIAL TO THE GAZETTE.]
Norfolk, Va., Aug. 24.—Today was set aside by the management of the Jamestown exposition as "Newsies' day." Thousands of newsboys of all ages, white and black, sound and crippled, were on hand from Washington, Baltimore, Philadelphia, Richmond, and some from points farther distant. They were given the freedom of the exposition grounds and the Warpath and it is safe to say that no visitors since the opening of the big fair ever enjoyed themselves more thoroughly.

Test For Millworkers.
Fall River, Mass., Aug. 24.—Following the action taken by the Lowell cotton mills the Bourne Mills of this city today ceased work and will remain idle for the next ten days in order that the thousands of operatives may have a vacation. The action is in the nature of an experiment and the results will be of wide interest in industrial circles. In lieu of regular pay the employees received today an extra dividend, amounting to 50 per cent of their wages.

RAILROAD CASE ON DOCKET NEXT MONDAY

Southern Railway Case in North Carolina Comes Before State Supreme Court Monday.

[SPECIAL TO THE GAZETTE.]
Raleigh, N. C., Aug. 24.—The appeal of the Southern Railway company in the famous Wake county case, in which Agent Green was fined and the company fined \$30,000 for violating the state rate laws, will be heard at the term of the North Carolina supreme court which convenes next Monday. It is expected that the case will be taken up early in the term in order that it may be hurried to a final hearing before the United States supreme court.

BISHOP COMING TO AMERICA WITH KING EDWARD'S BIBLE

Dignitary Of Church Who Loved English Earl's Beautiful Daughter, Has Had Rapid Rise.

[SPECIAL TO THE GAZETTE.]
London, Aug. 24.—America is about to receive a visit from a most interesting character in the person of the bishop of London, Rev. Dr. A. F. W. Ingram, who is to leave England next week to present to the old Breton parish church at Williamsburg, Va., the second oldest church in America, the Bible King Edward has given it in connection with the Jamestown tercentenary celebration.

The high position occupied by Bishop Ingram in the church world is sufficient in itself to attract attention. To be a bishop, at a comparatively early age, of the world's metropolis, in direct line of succession to the archbishop of Canterbury, the highest ecclesiastical honor in Great Britain, with riches and worldly power at his command, is in itself no small distinction.

But from the human interest point of view the romance of the youthful bishop's life is of far more interest than the story of his career in the church.

It was two years ago that the bishop's romance came to a focus, when it was announced that Lady Alice Duncombe, the youngest of the four famous beauties, daughters of the Earl of Faversham, was to become his bride. All London was startled. The bride-to-be, strikingly like her lovely sister the late Duchess of Leinster, was barely twenty-four. Her delicate charm had been fostered in an environment of softest luxury. The man she had chosen was known as "the stum bishop" and dwelt among the masses in the most laborious diocese in England. It would mean self immolation, her friends said.

But the affair was evidently a love match. Lady Alice, always of a serious cast of thought, entered heart and soul into the bishop's plans. But three months after the engagement was announced it was abruptly broken off. Whether her courage faltered or whatever interfered none dared to ask. But with the wedding day already in view, the beauty, who had declined an Earl for his sake, refused to marry her churchman lover.

The bishop, stunned by the blow which crumbled his happiness, went abroad. He returned a changed man. He had loved and lost. Only his work for the masses remained for him. Since then he has been known as "the working bishop," his youthful buoyancy gone but his face and bearing spiritualized and ennobled by his steady devotion to his life work.

MANY EVENTS SCHEDULED OF NATIONAL IMPORTANCE

Coming Seven Days Promise To Be Very Busy Ones—Lawyers Meet In Portland.

[SPECIAL TO THE GAZETTE.]
Washington, D. C., Aug. 24.—The meeting of the American Bar association will attract many lawyers and jurists of note to Portland, Me., next week. The sessions will begin Monday and continue three days. Judge Alton B. Parker and Ambassador Bryce will be the principal speakers. The convention will be followed by the meeting of the International Law association, beginning its sessions Thursday.

Prince Wilhelm of Sweden will spend Monday in Boston and on Tuesday will visit President Roosevelt at Oyster Bay. He will then proceed to New York for a visit of several days.

An international congress of anarchists is scheduled to be held at Amsterdam during the week to promote the attainment of anarchism among all civilized nations.

After a week or more of preliminary events and practice work, the championship matches of the National Rifle association will take place Monday and Tuesday at Camp Perry, Ohio.

Carl Grey will open the twenty-ninth annual Canadian exhibition at Toronto next Tuesday afternoon.

Secretary Taft will continue his trip to the Pacific coast, speaking during the week at several points in Missouri and Colorado.

Rear Admiral Charles Henry Davis, second in command in the Atlantic fleet, will be placed on the retired list Wednesday by operation of the age limit.

The senators and representatives who have been touring Europe this summer investigating the immigration problem will complete their work and sail for home Thursday.

The international peace conference at The Hague is nearing the end of its deliberations and it is probable that the final sitting will be held next Saturday.

GOTHAM PROPERTY VALUE INCREASING

Almost Impossible to Realize the Immensity of the Values at Present.

[BY ASSOCIATED PRESS.]
New York, Aug. 24.—In his report to the Mayor, President of the Tax Board Lawson Purdy, makes this interesting comment on the land values of the city:

"The value of land today in New York is so enormous that it is hard to realize its amount without some comparisons. The assessed value of land alone, exclusive of improvements in the city of New York is greater than the assessed value of the real estate, improvements included, in the state of Pennsylvania, and nearly twice as great as the value of all the real estate, including improvements, in the state of New York outside the city. The assessed value of the land for six square miles of Manhattan in the neighborhood of Central Park, is greater than the assessed value of all the real estate in the state of Missouri."

FINISH SURVEY

OF LAND DEALS

STATISTICAL EXPERTS FOR
STATE TAX COMMISSION COM-
PLETE LABOR HERE.

WORKED IN COUNTY 8 WEEKS

Values of Rural and Urban Real Es-
tate in Rock County Have In-
creased in Past Five Years.

After completing a survey of the
real estate deals in Rock county for
the past five years, which data will
be compiled by the state tax commis-
sion, Geo. W. Blanchard, U. S. Surveyor
and J. L. Curran, statistical experts
working for the commission, have
left this county to do similar work
in other counties of the state. The
collection of the data by the experts
has nothing to do with local assess-
ment or taxation and will not be given
publication except in a tabulated form
showing the comparative values of
real estate in the different counties of
the state. It required eight weeks to
go over the records of sales in this
county, the experts having begun
their work here the first week in
July. The last few weeks were spent
in field work, ascertaining the values
of property transferred from one
member of a family to another and
in cases of transfers where a third
of real estate constituted part of the
bargain.

"Rock county is one of the richest
counties in this state," declared Mr.
Blanchard before leaving the city for
Madison last evening. "The real estate
values of this county in the rural
districts have increased between 25
and 30 per cent no doubt, and the in-
crease in city property in Janesville,
Beloit, Edgerton and Evansville has
been about 50 per cent in the past
five years, judging from what real es-
tate dealers in the different cities have
told me and from the records of sales.
The advance in city property values
has been steady and strong as in-
dicated by the sales of the past five
years. There is no boom on here but
the growth is steady and strong. The
largest increase in city property
values was in Beloit which city has
shown a steady increase of late."

The object of the tax commission
in having a survey of the real estate
valuations of each county of the state
made is to determine the proper ratio
which the real estate of the state should
be assessed. In some counties the
land is assessed at 60 per cent and
in others it is higher. In Rock county
the local assessors attempted to as-
sess real estate at 50 per cent of its
true value this last year which
does an injustice to Rock county when
the tax paid to the state out of the
county tax when compared with com-
munities which assess real estate at a less
ratio. Where the assessment varies in
the different townships of a county
or in the different counties of the
state injustice is done. To correct
any injustice that may be practiced
in the state by assessment of real es-
tate at different ratios is the main ob-
ject of the state tax commission. In
pursuing this work. When the data
of all counties have been collected
the commission will then determine
a ratio at which land should be as-
sessed throughout the state.

REV. T. M. HARE TO
LOBBY IN CONGRESS

Recently Resigned Head of Wiscon-
sin Anti-Saloon League Now in
the National Work.

Rev. T. M. Hare, recently resigned
head of the Wisconsin Anti-Saloon
League and a man well known in
Janesville, having spoken here on
numerous occasions in the past, will
be in charge of the temperance lobby
in the United States congress at its
next session. The position he holds
is superintendent of the National
Anti-Saloon League and assistant to the
national superintendent of the anti-
saloon league. Mr. Hare declares the
league will again fight for the prin-
ciple contained in the Hopman-Bol-
ton bill. "We have been fighting for
years to get a law which will give
the states the right to control the
liquor questions within their borders,"
said Mr. Hare. "As it is now, the
federal authorities step in under the
interstate commerce law and force
the common carrier to transport the
liquor whether they wish to or not.
This is unjust to prohibition states.
We hope to win in the coming con-
gress."

During the past two sessions of the
legislature Mr. Hare has appeared in
the interests of the league and has
done effective work in fighting the
liquor interests. In the last session he
was instrumental in having the local
option bill passed, after one of the
hottest fights in the legislature two
years before.

Fair in Educational Department.

School children of the entire state
will be interested in a new depart-
ment of the state fair, to be held at
Milwaukee, Sept. 9-15. It is known as
the department of education, and ex-
hibits will be made in the beautiful
new educational building now being
erected on the grounds. Premiums
are offered for a large variety of ex-
hibits, 152 in all, open to all classes,
such as the state graded schools and
the rural schools. The entries called
for are for all departments of
school work, beginning with such as
"Best Production Map of Wisconsin,"
"Best Map Showing Daily Interests
of Wisconsin," "Best Display Garden
Products Grown in School Garden,"
"Best Collection of Wisconsin Wild
Flowers, Wisconsin Grasses"; in
manual training, "Best Piece of Wood-
work, Bent Iron, Brass Work"; "Mat
Weaving"; "Paper Folding"; "Sew-
ing"; "Vertical Weaving"; "Shut
Weaving"; "Drawing"; and countless
other specimens of work done in the
public schools. It is desired that this
department be very representative of
the entire state.

Secretary John M. True of Madison,
Wis., will be glad to send entry
blank to all making application. Ex-
hibits should be at the state fair
grounds, Milwaukee, between Septem-
ber 22.

Monday, the opening day of the fair,
will be "Children's Day," when
school children will be admitted to
the fair grounds free of charge.

NEW WOMAN'S SUFFRAGE MOVE-
MENT.

A woman talking to women, lately
unintentionally the interesting propo-
sition, "If you can't get your vote, you
always got your voter and you can
always get him to vote your way if
you use BLENDED FLOUR in your
baking. A good meal with the brand
and blends warms a man's heart and
helps him to see our questions clear-
ly."

REV. T. M. HARE TO
LOBBY IN CONGRESS

Recently Resigned Head of Wiscon-
sin Anti-Saloon League Now in
the National Work.

Rev. T. M. Hare, recently resigned
head of the Wisconsin Anti-Saloon
League and a man well known in
Janesville, having spoken here on
numerous occasions in the past, will
be in charge of the temperance lobby
in the United States congress at its
next session. The position he holds
is superintendent of the National
Anti-Saloon League and assistant to the
national superintendent of the anti-
saloon league. Mr. Hare declares the
league will again fight for the prin-
ciple contained in the Hopman-Bol-
ton bill. "We have been fighting for
years to get a law which will give
the states the right to control the
liquor questions within their borders,"
said Mr. Hare. "As it is now, the
federal authorities step in under the
interstate commerce law and force
the common carrier to transport the
liquor whether they wish to or not.
This is unjust to prohibition states.
We hope to win in the coming con-
gress."

During the past two sessions of the
legislature Mr. Hare has appeared in
the interests of the league and has
done effective work in fighting the
liquor interests. In the last session he
was instrumental in having the local
option bill passed, after one of the
hottest fights in the legislature two
years before.

ADS ARE ORDERED

OFF FREIGHT CARS

Master Car Builders Issue Sweeping
Edit Against Placards on Cars—
Local Dealers Hit.

Janesville manufacturers will no
longer be allowed to advertise their
products on the city in which they are
made, on freight cars, unless the Mas-
ter Car Builders' association modifies
the sweeping order it has just issued
and which becomes effective Sept. 1.
Another order unanimously re-
ceived makes all delivering of any
kind to the body of any car, due to
unfair usage, detrimental or accident;
also for temporary advertisements
tacked, glued, painted or varnished
on cars.

Every Shipper is Affected.
For temporary advertisements tacked
on cars the price for removing is
50 cents per car. For temporary ad-
vertisements painted, glued or varnished
on cars the price for removing is
fixed at \$1 per car.

Appended to the order is the state-
ment that all temporary advertise-
ments will be removed at the first in-
spection point and that the advertiser
will be charged for such removal.

The railroad representatives are re-
quested in the bulletin to notify all
patrons of the new rules.

The orders are unusually important
and extremely far-reaching, affecting
every shipper in the United States.
A commission appointed by the Master
Car Builders' Association made the
finding only after the most thorough
investigation and consideration.

Much Criticism is Expected.
There has been a rule heretofore
that prohibited the decoration of cars
with advertisements, but it was dis-
regarded both by shippers and rail-
roads. The association's order just
issued, however, will be enforced to
the letter.

Shippers everywhere for years have
found box car advertisements both re-
munerative and exceedingly econ-
omical. Manufacturers fairly plastered
the sides of some cars with their pub-
licity work in all colors. Huge signs
and pictures describing a firm's busi-
ness were whisked from one end of
the country to the other on freight
cars, and they proved profitable.

Opposition from shippers in every
part of the country to the decisive rul-
ing of the Master Car Builders' as-
sociation is anticipated, but the organiza-
tion, it is said, will not recede from
the stand it has taken.

Plastered Cars Are Eyesores.

Objections to advertisements on
cars have been made not only by the
railroads but by civic improvement
associations in all parts of the coun-
try. Condemnation of car advertising
followed condemnation of billboards
as destroyers of a municipally beau-
tiful city. Freight cars covered with ad-
vertisements stand on tracks in many
cities where they are an eyesore to
everyone.

SCHUMAKER IS TAKEN TO HOME

AFTER FOUR MONTHS' SUFFER-
ING WITH BULLET WOUNDS.

FLORENCE DUGAN'S TRIAL

On the Charge of Assault With Intent
to Kill Will Not Take Place Until
Some Time After the 27th.

After four months of suffering at the Mercy hospital, George Schumaker, the man who was shot down by Florence Dugan on the night of April 17, was removed to the home of his parents at 105 Western avenue this afternoon. Every possible precaution was taken by the physician, Dr. G. C. Wauder, and the nurses and Russell's

ambulance conveyed him across the city. His people have desisted his removal for some time past and it has been Schumaker's wish to leave the hospital as soon as possible, but conditions have not been such as to warrant it up to this time. The brothers have contributed something each week towards meeting the expense of taking care of him but the major portion has been defrayed by the county which will now be relieved of

Miss Florence Dugan, Charged With Attempting to Murder Schumaker.

Further responsibility in the matter. A nurse has been engaged by the brothers to look after him at home. It is doubtful whether the man will ever recover full control of his lower limbs and internal organs which are almost totally paralyzed. While the progress of the cure has been checked, the operation but by his recovery, indeed, is not a matter of certainty and that he lives at all is due to unrelenting care of physicians and nurses.

Information against Florence Dugan, on the charge of assault with intent to kill, will be filed on Tuesday, Aug. 27, but the trial will probably not take place until some time thereafter—possibly about the middle of September—says Attorney T. S. Nolan who has just returned from Seattle. He expects some time to prepare the case. The prisoner is a sort of "trusty" at the jail. She is not confined to her cell and moves about with comparative freedom.

BUELL HOME, READY TO OPEN SCHOOLS

School Buildings Have Been Repaired
and During Summer and All Is
in Readiness.

Superintendent of Schools H. C. Buell has returned from his extensive work in different cities in the state and is arranging for the opening of the public schools of the city Tuesday, Sept. 3. All of the school buildings have been overhauled during the summer vacation and they are now ready for occupancy. A new ventilation system has been placed in the Jefferson school. The place has been placed and the fans will be set soon after school resumes. The old rooms of the Jefferson have not been disturbed by the workmen while working on the new addition to the building and school will be resumed in the old part as it stood last spring. The contract calls for the completion of the new wing by Feb. 1, next year. Mr. Buell will examine the grade school children who have been studying during the summer next Wednesday. He will hold an examination for the grade and kindergarten teachers on Thursday. The high school corps of teachers will be the same this year as last with the exception of Valdemar Boers of Menominee, who will be in charge of the manual training department in place of Edward Stetely.

TYPEWRITER SHARP WORKED WATERTOWN

Merchant by the Name of Edgar G.
Burton Turned Over Check
for \$100.

Edgar G. Burton, a merchant of Watertown, was not as lucky as H. N. Adair of this city in his dealings with "William Smith," believed to be none other than the "W. Leveck of Chicago" who nearly worked his end game in typewriters here yesterday. "Smith" touched Watertown on Monday and claiming to represent the Office Specialty System Co., secured from Burton on Wednesday a check for \$100 on a "rental rights" typewriter deal. He had a number of small machines with him and agreed to give the Watertown man the exclusive right to sell them in Watertown and Jefferson counties. Burton gave his check to hold or else, the deal with the understanding that it was not to be cashed until the typewriters were received. Yesterday he became suspicious of "Smith" and not being able to find him went to the bank to stop payment on the check, only to find that it had been cashed on the previous day and that "the bird had flown."

GIRL OF 9 RUN OVER BY AUTO

MAE SWEETLAND GOT UNDER
ALDERMAN JONES' CAR.

DRIVER'S RARE JUDGMENT

He Stopped Directly For Child, Saving Her From Getting Under Wheels on Either Side.

At play on Milwaukee street, near the Corn Exchange, this afternoon, Mae Sweetland, aged nine years, dashed directly in front of Alderman Arthur Jones in his large touring car, stopped for racing and was run over. Witnesses of the accident say the machine was traveling at a reasonably slow rate of speed and that all blame should be attached to the victim. The driver showed rare presence of mind and stopped directly for the child thus saving her from being crushed under the wheels. The machine struck her down and passed over her without even scraping or rolling her. The child was on her feet immediately and began running away but the ends of Mr. Jones stopped her. He took her to the home of her mother, Mrs. Sweetland, at the corner of North Franklin and Wall streets. The girl complained of pain on the right side of her neck and on the same shoulder and those portions are swollen. A doctor has been called but as the paper goes to press he had not completed his examination. It is possible that the collar bone has been broken and the child badly strained but it is not thought that the injuries are more extensive or serious.

BIG MASS MEETING TO HEAR STRIKERS

OPERATORS TO TELL BUSINESS MEN THEIR POSITION.

WOULD JUSTIFY COURSE

Small's New York Trip Doesn't Mean Peace Move—Tammany Hall Helps the Telegraphers.

Chicago, Aug. 24.—A monster mass meeting at which the cause of the striking telegraphers is to be laid before the business men of Chicago has been decided on by President Sylvester J. Small, of the Commercial Telegraphers' union.

Mr. Small said Friday that as the time had come when both sides were determined, and it might seem to the public that the strikers' attitude was more stubbornness, the telegraphers should go before the community and present their case fully.

The plan was taken up by Mr. Small as the result of a private conversation, later made public, in which President Sager, of the board of trade, expressed a desire to look at the case from the point of view of the telegraphers, and said that for the purpose of so doing he would attend one of their meetings.

This seemed to President Small an indication that there must be other business men who held a like opinion.

Small going to New York. Mr. Small leaves Chicago for New York Saturday, and said that his mission had nothing to do with any overtures of peace to the head officers of the telegraph companies.

"I am going to New York," he said, "to look over the general situation and see what needs to be done there. There will be no peace move."

Ten operators formerly employed by Sidney C. Love & Co., Charles Minzschewer & Co. and Shearson, Hammett & Co. returned to work Friday, having made a satisfactory agreement with the brokers.

Tammany Gives Relief Fund.

Word was received at the national headquarters from Percy Thomas, head of the executive committee in New York, that Charles Murphy, chief of Tammany hall, had headed a subscription list with \$1,000, and that a total of \$15,000 was expected from the Tammany organization.

Fred Terrell, an operator for the Associated Press, is said to have been made insane by worry over the strike. A month ago Terrell bought a home in Edgewater, paying for it on the installment plan. Since the strike was called he has stayed at home in a state of melancholia, fearing that his home would be lost to him.

Mrs. Terrell finally telephoned to the Associated Press, and the officials there had Mr. Terrell taken to the German hospital. His condition grew worse, however, and his wife was notified Friday that he would have to be taken to an asylum.

NOTED SHOW WOMAN DEAD.

Mme. Agnes Lake, Who Owned Circus and Was Famous Performer.

New York, Aug. 24.—Mme. Agnes Lake, the first woman circus owner in this country and at one time a famous bareback rider and high wire walker, died Friday at the home of relatives in Jersey City. Mme. Lake's career was one of romance and adversity. Both of her husbands—William Lake, a circus clown, and "Wild Bill" Hickey, an associate of "Buffalo Bill"—were killed by desperadoes. She was 81 years old and had been with various circuses for 41 years. For the last ten years she had been an invalid.

HOME ENDORSEMENT.

Hundreds of Janesville Citizens Can Tell You All About It.

Home endorsement, the public expression of Janesville people, should be evidence beyond dispute for every Janesville reader. Surely the exposure of friends and neighbors, cheerfully given by them, will carry more weight than the utterances of strangers residing in faraway places. Read the following:

Mrs. B. E. Jones, of 157 Western Ave., Janesville, Wis., says: "I was not free from attacks of backache for a single day during several years past, and used so many remedies without getting any relief that I came to the conclusion that nothing would help me and stopped trying. I went about all bent over, could not straighten up at all and had a dull pain across the loins and a feeling of weakness that made it hard for me even to rise from a chair. At night I would awaken with the feeling that a great weight was breaking my back, and anyone who has suffered from kidney trouble will know what torture I endured. Finally I saw Doan's Kidney Pills advertised and wondered if there was really any use of trying another remedy, but seeing them recommended by people in Janesville I got a box at the People's Drug Store and began using them. Gradually I regained strength and the pains and aches finally disappeared. Since I completed the treatment I have not had an attack of backache nor any symptom of kidney trouble, and I believe Doan's Kidney Pills worthy of all the praise that I can give them."

"BLACK HAND" KILLS TWO MEN.

Double Murder Committed on the Streets of Coalfield, Pa.

Coalfield, Pa., Aug. 24.—A double murder for which the "Black Hand" is held responsible was committed on the streets of this place Friday. While Frank Pekolnas and Samuel Ambrose were walking together along Ridge street they were attacked by several men and before they could offer resistance they were stabbed to death. Pekolnas' throat was cut and Ambrose received a knife wound that pierced his heart. It is known that Pekolnas and Ambrose had expressed fear of vengeance at the hands of enemies.

Stand Up for Flag in Manila. Manila, Aug. 24.—A mass meeting of 3,000 Americans adopted resolutions protesting against the indignities to the American flag, and congratulating the Philippine commission on the enactment of the drastic law prohibiting the display of any ensign except the American in the Philippines. The resolutions also invite Filipinos to join with the Americans in making the policy of the Philippine commission successful. Among those who delivered addresses at the meeting was Congressman McKinley.

Cost of Occupying Cuba.

Washington, Aug. 24.—It cost the American government \$2,563,970, in addition to the regular ordinary expense to keep the American army of Cuban pacification in that island during the fiscal year of 1907. This fact is shown by the annual report of Gen. Alshiro, quartermaster general of the army. Of the amount stated \$1,915,383 was spent for transportation.

SECRETARY ROOT FAST RECOVERING

REGAINING HIS HEALTH AND ENERGY AT MULDOON'S.

NO OCCASION FOR WORRY

Has Spent Three Weeks at Sanitarium Unknown to Public—Received One Visit from the President.

New York, Aug. 24.—Secretary of State Philo Root, who has already spent three weeks at the farm-sanitarium of William C. Muldoon, ex-champion wrestler, near White Plains, taking Mr. Muldoon's course of athletic treatment for a severe attack of nervous exhaustion, expects to complete his cure in two weeks more. He is now well on the road to complete recovery and all reason for apprehension about his health seems to have disappeared.

On the quiet farm among the West Chester hills, so secluded that the secretary of state was enabled to pass three weeks there and be visited by the president of the United States before his whereabouts were discovered by the public, Mr. Root has fished up, put on a healthy coat of tan, lost the drawn, worried look of the early summer, and will go back to Washington, as Mr. Muldoon phrases it, "the strongest member of the cabinet, not even barring Taft."

Now Full of Energy. During the first two weeks of his stay he gained a pound a day, acquiring therewith such a stock of energy that he was able Friday to ride 18 miles, walk three miles and in addition to the usual course of exercise with the big medicine ball, box 15 vigorous minutes with Muldoon.

When visited Friday on the veranda of the Muldoon residence, his face showed good color, his eyes were clear and his hand steady. He looked a trifle tired but otherwise well. Mr. Root asked to be excused from talking about his health, but his appearance was a sufficient contradiction of the exaggerated reports of a complete breakdown. His physician visited him but left without making any arrangements for his return.

Had Nervous Exhaustion. According to Mr. Muldoon, Secretary Root, when he arrived, was suffering from nervous exhaustion, the result of overwork and strain.

"He was very nervous," said the ex-athlete, "more so than I ordinarily care to see patients. His brain was tired; he was anxious and worried about things which never happened and never could happen. He was very weak then, but when he goes back he'll be the strongest member of the cabinet. He is taking a course of exercise suited to his age and strength and goes at his work with the energy you would expect from a man who has come to the front as he has. He knows something about boxing, too; seems to have learned it as a boy and never forgotten."

During his stay at White Plains, Mr. Root has been resting as much as possible from mental work. It was part of the agreement with Muldoon that no one should be allowed to see him except his secretary, his physician and Mrs. Root, and until Friday this rule had been violated only once—in favor of President Roosevelt, who during the first week of Mr. Root's stay motored over with his family to pay a brief call. Though no special effort had been made at secrecy, Mr. Root's presence had been quite unnoticed. He had ridden almost daily with the other patients over the roads about White Plains, several times passing through the town, and had received his private secretary for the transaction of necessary state department business. His presence at the sanitarium became known through the filing at the local telegraph office of dispatches for the state department.

Verdict for Dr. Pierce

AGAINST THE

Ladies' Home Journal.

Sending truth after a lie. It is an old maxim that "a lie will travel faster than truth." It is getting its boots on and now it is traveling thousands of good people read the unwarranted and malicious attack upon Dr. R. V. Pierce and his "Favorite Prescription" published in the May (1907) number of the Ladies' Home Journal, with its great black display headings, who never saw the humble, groveling retraction, with its inconspicuous heading, published two months later. It was boldly charged in the standard and libelous article that Dr. Pierce's "Favorite Prescription" for the cure of women's weaknesses and ailments, contained alcohol and other harmful ingredients. Dr. Pierce promptly brought suit against the publishers of the Ladies' Home Journal, for \$250,000 damages.

Dr. Pierce alleged that Mr. Bok, the editor, maliciously published the article containing such false and defamatory matter with the intent of injuring his business. Furthermore, that no alcohol, or other harmful, or habit-forming, drugs, or, or, or, were contained in his "Favorite Prescription"; that said medicine is made from native medicinal roots and contains no harmful ingredients whatsoever; and that Mr. Bok's malicious statement were wholly and absolutely false.

The court found for Dr. Pierce, and the verdict was affirmed by the Supreme Court of the United States. The matter was, however, brought before a jury in the Supreme Court of New York State which promptly rendered a verdict in the doctor's favor. Thus his traders came to grief and their base assertions were refuted.

Fatherly Advice. A representative in congress has a son who was recently nominated for a state office, on which occasion the old man proceeded to give him some advice. "Now, Dick," he said, earnestly, "just lean a little toward everything. Be round, counsellor yourself to nothing. Be round, Dick; be perfectly round, like a tank bottle, and just duck enough so that nobody can see what's in you and you'll get along."

He Could Take a Joke. The other day a besotted old gentleman was stopped by a tramp, who asked for money for a night's lodging. "Well, look here, my man," said the gentleman, "what would you say if I offered you work?" "Bless yer life, sir," came the reply. "I wouldn't mind a bit; I can take a joke same as most people."

When Doctors Dine Together

Is it coffee? Is it tea? No! Seldom indeed do they use these evil drugs. They know that they destroy digestion—weaken the nerves—encourage insomnia. The vast majority of physicians prefer pure malt and hop beer at meals, such as

Gund's Peerless Beer

This superb beer has been brewed for over half a century from the best malting barley and imported Bohemian Hops by the celebrated "Gund Natural Process." Physicians knowing its commanding superiority over all other American beers not only approve of it for their own table, but heartily recommend it to poorly nourished and convalescing patients. The testimony of the World's greatest physicians prove that beer is undoubtedly healthy—for example we print the following:

Dr. WILLIS P. KING, of Kansas City, formerly President of the Missouri State Medical Society, speaks of beer as follows:

THE BALLOON IN WAR

Experiments by the Signal Corps of the United States Army.

WATCHING ARMIES FROM SKY.

Progress of Military Ballooning in the United States—The Aerial Station at Fort Omaha—The Work of General James Allen.

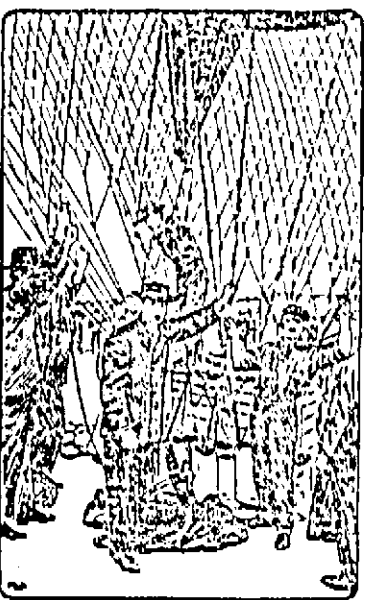

Although Germany and France have negotiated with the Wright brothers of Ohio regarding the building of aeroplanes for military purposes, it has been prophesied that the United States would be the first nation to have a real aerial fleet for use in war. The prophecy has been made by those in a position to speak by the card too. Whether a fleet of this kind should be classed as a part of the navy or as an adjunct of the army it might perhaps be difficult to say. Aerial warfare could be carried on just as well over the land as over the sea or perhaps better over the land than over a large body of water like the ocean. It does not require a very great imagination

ATTACHING BASKET TO NEW WAR BALLOONS, to see sitting in the cabinet of some successor to President Roosevelt a "secretary of the aerial navy."

At the present time, however, experiments by governmental authorities in aerial navigation have not progressed to the point of building or planning aerial battle-ships. What has been accomplished so far has been done mostly by the signal corps of the army and has consisted in experiments to determine the best type of air navigator for use in making military observations. Not so very much noise has been made about the matter, but the signal corps, under General James Allen, has been going ahead making investigations and experiments with all kinds of balloons, dirigibles and aeroplanes. The idea is to settle upon some system of aerial navigation for use in operations of the army either in times of peace or times of war.

The United States government has been conservative in its policy with respect to the military use of balloons and dirigibles, but has not been unwary of the progress other governments have been making in adaptation of air navigation to purposes of warfare. Not long since an aerial station was established at Fort Omaha, in Nebraska. A few months ago there arrived in this country from France a balloon of a type used by the French army which was purchased by the signal corps in order that its merits might be tested in competition with balloons of American make. Contracts were also entered into with the well known aeronaut, Leo Stevens for the construction of several large balloons costing altogether about \$12,000. An appropriation was

CAPTAIN C. D. F. CHANDLER OF SIGNAL CORPS REPAIRS INTO CAR.

made by congress to equip the aerial station in Nebraska with the apparatus necessary for experiments. In general the United States government desires to encourage aeronauts in this country to perfect their knowledge, though its policy differs in many respects from that of some European governments. For the present the aim of General Allen and his associates of the signal corps is to make as good use of balloons as possible in actual work, but it is the intention to have them large enough for carrying bombs to drop in the camp of an enemy. The balloon corps of the French army now numbers over 100 men. General Allen believes that the United States is fully abreast of other countries in knowledge of aerial warfare and expects that the American army will have before long an aerial equipment superior to that of any army in Europe.

A High Grade School Employing Only Practical Specialists As Teachers

The Southern Wisconsin Business College

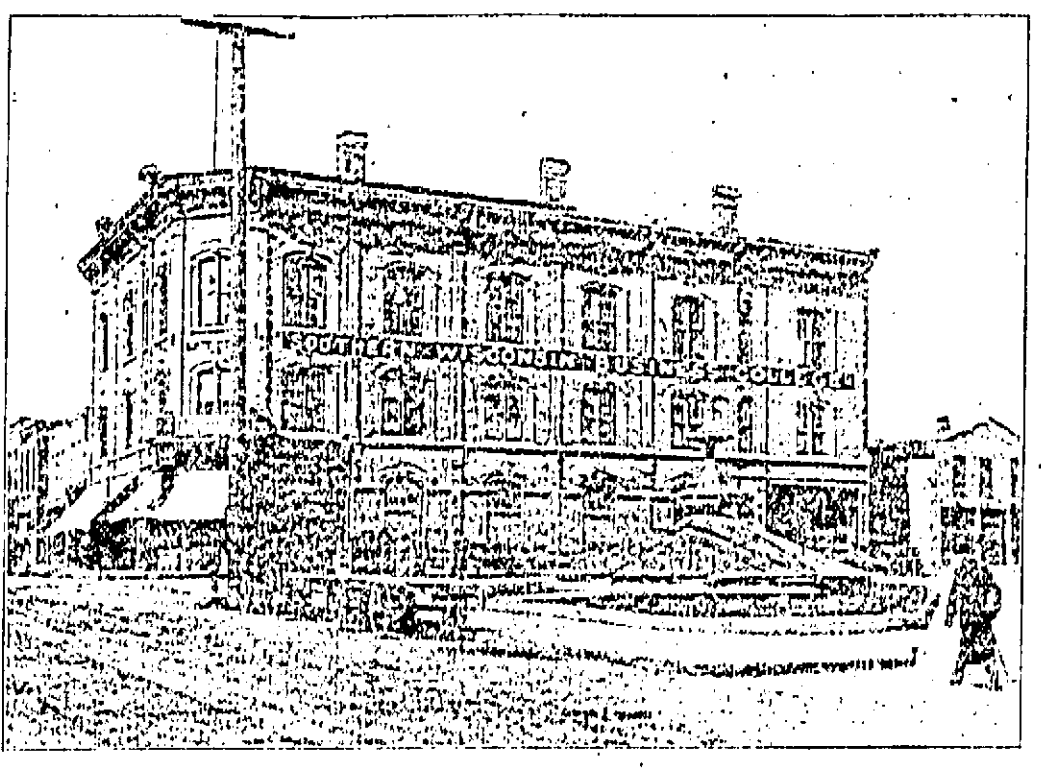

has always maintained a high standard of scholarship and ability for its teachers. Every teacher must have *practical office experience* as well as some years of *successful teaching experience* before he can secure a place on our staff.

Intending students would do well in selecting a business school to look carefully into the qualifications of its teaching staff. Their success or failure is often determined by the teacher from whom they secure instruction. We invite the closest investigation along this line. It costs more money to secure such good teachers but in no other way can good results be secured.

COURSES OF STUDY

In this respect we are not surpassed and seldom equalled anywhere. Our

New Chartier Shorthand and Twentieth Century Bookkeeping and Accounting

are the latest inventions in the educational world. We have tried and tested them thoroughly, and with our expert teachers we are able to give the intending student more value for the time and money spent than can be obtained in the low-grade old-system schools. All we ask is a close investigation of our systems and methods before selecting a school.

THE JOKE WAS ON HER.

Comparison Made by Woman Lawyer Left Opening for Opponent.

A woman member of the bar in New York gives the following correspondence with the reservation that no names shall be quoted: "I am one of the few women," she says, "who can see a joke even if aimed at myself. I do not feel that in this case I came off first best." The letter was from a man lawyer and was as follows: "Dear Miss Blank: We agree to the compromise as promised in your favor of this date. Not because your client has a just right to such settlement, but from the fact that we do not care to open a contest with a woman lawyer." To which the reply was sent: "Gentlemen: I note yours agreeing to a settlement, although I cannot congratulate you on your gallantry in backing the question. Like the original Adam, you seem inclined to hide behind a woman's petticoat." And the following letter closed the correspondence: "Dear Miss Blank: If you will turn to the early pages of Genesis you will discover that Eve did not wear a petticoat."

Fishhawk Gives Up Prey.
Alec Canova brought a three-pound trout to the Record office the other morning and gave a very interesting description of the manner in which it was caught. His son Frank observed a big fish near Bar Creek, about a mile and a half north of town, and noted that the fish was of very respectable size. He watched the big bird until it hovered almost overhead, but within close range, and he picked up a stone and with splendid accuracy hurled the missile at the hawk, striking it. The bird dropped the trout and Frank ran forward and took charge of it. The head was torn open, but the body was uninjured except for the punctures made by the talons of the hawk.

Three Grades of Husbands.
A woman who shall be nameless furnishes the following essay on husbands: "There are three kinds of husbands: The young husband who makes us unhappy because we are so jealous of them, the middle-aged husband who breaks our hearts because they would rather make money or play golf than devote any attention to us, and the old husbands who sicken us with their silly objections whenever we turn to look at a younger man."

GAVE HIS NAME TO STEAK.

How the Famous Porterhouse Came to Be So Termed.

On almost every bill of fare are seen the words "porterhouse steak." Now, most people know what a porterhouse steak is, having on some occasion eaten one, or at least a piece of beef that went by that name, but few people know how the name itself originated. Years ago there was a hostelry near Harvard university kept by a man named Porter. Soon this tavern became famous for its viands, especially for its cuts of meats. The stranger stopping there for a meal and not knowing exactly what to order would be advised by his genial host, Mr. Porter, to order a steak. So good were his steaks that travelers often spoke of them, and gradually began referring to them as the "steak you get at Porter's house." From that it was but a short time before they were referred to as the "porter house steak." Since then butchers all over the country have found out the way in which Mr. Porter cut his famous steak, and have been making the same cuts themselves, hence the porterhouse steak has been served the country over. Only a month or so ago the old Porter house was moved back to make room for a row of tenement houses that are now being built in front of it.

Young Woman's Name of Little Benefit to Conductor.

A young colored woman tripped herself in leaving a street car out near the edge of the city a few days ago and fell into the street, relates the Denver Post. She was not hurt, but, following the company's custom, the conductor asked her for her name. "Ah, isn't hurt," she said. "I know that," said the conductor, "but I must have your name, please." "Well, mah name is Miss Panay So-and-so," she said. The conductor thanked her and she started away. Before reaching the curb she turned with a grin on her face: "Say, white man," she called, "dat name won't do yo' no good." "Why not? Isn't it your right name?" asked the conductor. "Yassuh," she said, "but it won't be afiah to-night. Ah'm goin' to get mahried to-night." Then she disappeared around a corner.

Takes His Bride's Surname.
Dr. Anilo H. Copelan was married to Abraham E. E. Copelan, formerly Abraham E. E. Copelan, in the parsonage of Rev. Dr. H. W. Schneberger the other day after a peculiar romance, says the Baltimore Sun. Instead of the bride changing her name, it was vice versa, the man changing his name. Dr. Copelan was graduated from the Maryland university four years ago, and in the meantime has

built up a practice in net adventure-hood. Not wishing to lose any of her practice by changing her name when she married Mr. E. E. Copelan, who is a student in the dental department of the Maryland university, they decided that the best thing to do was to have the court change his last name to Copelan.

Literary Associations.

She was sitting next the window, gazing at the landscape. "Dearest," she murmured, "do you realize the significance of the scenes through which we are being so unsympathetically whirled? This is the land of song and story—the realm of old romance. Do not these changing vistas call up in your thoughts of darling knights and endearing damsels—of fount and forest, of fens and fays?" "Yes, darling," answered husband, earnestly, but without enthusiasm, for he was not even pen-literate, and knew it. He was, therefore, not unduly affected by the interruption when the brakeman stuck his head in at the door and yelled: "Indianapolis!"—Puck.

Doctor Sets Cat's Shoulder Blade.
Bellevue hospital, New York, recently adopted a patient and gave it a life berth as chief mouse catcher of the institution. The reception room was crowded when a stranger entered with a rather aristocratic cat under his arm. Dr. Leroy Smith paused in his work to inquire. He learned that the stranger had picked the cat up on the street, where he had noticed it in apparent agony. Dr. Smith found a broken shoulder blade constituted the trouble. He set it and the cat was placed on a blanket in an outdoor tent. The cat purred its gratitude. Many of the hospital doctors dropped in to take a look at Dr. Smith's patient and each voted for adoption.

Consul's Lonely Post.

About the most lonesome place for an American consul is in the Falkland Islands. This is where J. E. Rowan is and has been since 1898, and receives a salary of \$2,000 a year. Originally he was from Connecticut, but he went west and was state senator in Iowa for four years. Then he went into newspaper work. Longing for a change he asked to be sent to some place far from civilization. Evidently he is well satisfied to remain on an island where he is the only American representative.

Mysterious Woman.

It is because it is always impossible to know how a woman will act, to grasp the workings of her mind, to pierce the veil that hides the innermost recesses of her soul, that she has held such complete sway over man. He can never definitely rely upon her. —London World.
